Network		<p>2 Mbps upload, 2 Mbps download minimum For best performance, 5Mbps upload and 5 Mbps download are recommended Broadband (wired connection recommended such as ADSL, Fiber optic cable or cable TV)</p> <p>If on a company network:</p> <ul style="list-style-type: none"> Internet connection 512 Kbits/s or faster Network ports: TCP/IP

Our Berlitz instructors will use a camera during your lesson; however, you do not need to prepare a camera. However, we kindly ask you to turn your camera on during the whole training to ensure an active and practically oriented learning environment.

Depending on your system's environment and line status, you may experience limitations other than the matters described above.

Cookies must be enabled in order to use the web platform. Extensions or browser configurations that block or disable cookies may prevent participants from joining a Berlitz Live Online Session.

Tech-Check with your PC

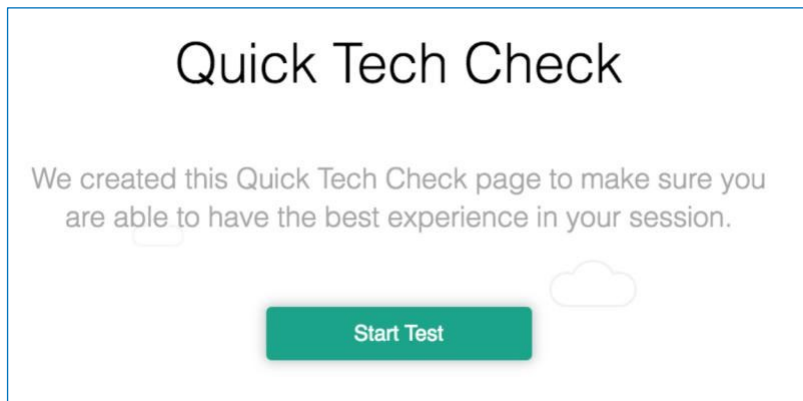

Before starting your Berlitz language instruction or when you change your settings or PC, please check that your PC works well for Berlitz Live Online classes. If there are any problems, please use the service are in your MyBerlitz portal to contact us.

Technical Check

1. Please click here to perform the Technical Check:

[Perform a Technical Check](#)

2. Click “Start Test” to begin.

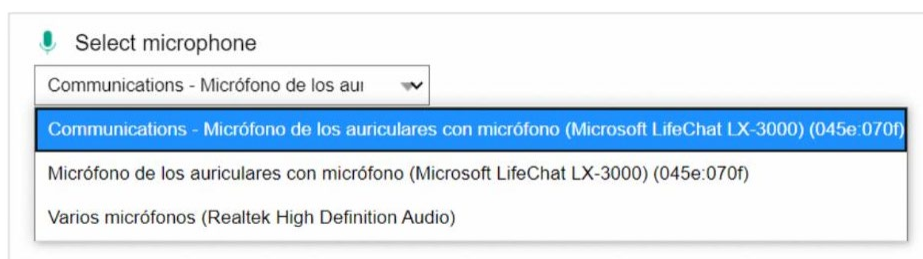

3. You will be prompted to allow access to your camera. You can choose to “Allow” or “Block” this action during the technical check.

4. Your technical check process will begin automatically, and you will be redirected to the next page.

5. To set up your microphone, select it from the dropdown list.

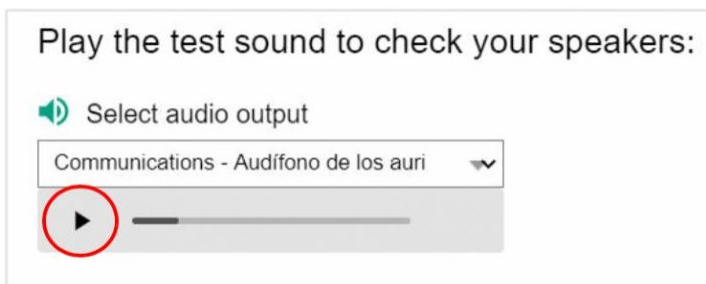

6. To test your microphone, fill the lines below.

7. To set up your audio, select the according one from the dropdown list.

8. To test your audio, play the test sound by clicking on the “Play” button.

9. Verify your connection quality in the chart below.

Your connection quality		
Test	Information	Status
Browser/OS Version Check	You are running Chrome version 83.0 on Windows version 10 . This browser/operating system combination is fully supported!	PASSED ✓
WebRTC Components Check	WebRTC is fully supported!	PASSED ✓
Ping/Jitter	Ping time: 94.49 ms. / Jitter: 62.14 ms.	PASSED ✓
Download Speed	Download speed: 98.15 Mbps. Nice! This will do just fine	PASSED ✓

10. Your technical check is complete!

Technical requirements for company IT department

Ports	UDP: 80, 443 TCP: 80, 443 HTTP: 80,443 Note: Your organization will need to ensure that the network allows for the streaming and downloading of real time video/audio and enable the above-mentioned ports and protocols in the firewall.
Camera and microphone	Need access/permission in browser at all times
Sites/URLs to be whitelisted	*.smart.newrow.com *.newrow.com. *.kaltura.com *.firebaseio.com *.kaltura.com.cn *.kme.kaltura.com.cn www.googleapis.com klive-a.akamaihd.net kalsegsec-a.akamaihd.net kms.a.akamaihd.net frp.newrow.com frp.smart.newrow.com KAF: 172.kaf.eu.kaltura.com
IP addresses	Newrow uses dynamic IP, so no IP to unblock.
WebRTC	Needs to be enabled.
Zscaler	If Zscaler is in use, then proxy needs to be enabled, or all the above in Zscaler.
Pop-up blockers	Disable pop-up blockers that prevent the student from being able to enter the classroom through the MyBerlitz student portal.
Citrix environment	Allow use of microphone and camera for students.
VPN usage	Can cause connection issues. Please review your company's privacy policy.
Supported browser	Google Chrome, Mozilla Firefox, Microsoft Edge Chromium, Safari
Operating system	Windows 11, 10, or 8 MacOS 11, iOS 11, or later

	Additional information: <ul style="list-style-type: none"> • iPhone 5S or later
Kaltura requirements:	https://knowledge.kaltura.com/help/kaltura-meeting-recommended-system-requirements-nr2

Note: A connection via remote desktop will not work.

If your organization is using Firewall or VPN, to configure your firewall to best work with Kaltura's Real Time Communication solutions, please follow the guidelines below.

Protocol	Ports	URL	Addresses
TCP TCP/TLS UDP	443 443 80, 443	*-turn.newrow.com	3.70.195.32/27 44.199.182.96/27 3.99.123.208/28 15.228.143.96/28 35.86.65.48/28 13.214.124.16/28 3.110.59.16/28 3.38.131.128/28 3.26.132.224/28 35.76.250.144/28 16.163.33.96/28
TCP TCP/TLS UDP	443 443 80, 443	*-turn.kme.kaltura.com.cn	71.131.196.48/28

*TURN protocol messages should not be blocked to the above addresses.

<p>Kaltura is purely browser-based.</p> <p>Please test the compatibility of your device with the Tech-Check:</p> <p>Perform Tech-Check</p>		

Tips if technique is not working with Zoom, Cisco Webex and Kaltura

1. Check if you are using the recommended browser.
2. Check if your WiFi connection is possibly unstable. If this is the case, use a LAN-cable if possible.
3. Download the app, don't only use the browser.
4. Contact your IT to check if your firewall is blocking the application.

Your advantages for all platforms

- Our Berlitz instructors are specially trained for the implementation of our seminars in virtual rooms. They are very experienced with all the above-mentioned platforms.
- Very good transmission quality
- Clearly arranged surface
- Simple handling for participants
- No installation necessary
- Virtual rooms for the seminars are provided by the Berlitz Team for all participants.

Berlitz Seminars E-Learnings

E-Learnings from Berlitz Business Seminars are cloud-based and only require internet access.
